The Smart IT Platform for the AEC Industry

Avatara's CompleteCloud Platform is the comprehensive technology solution for Architecture, Engineering, and Construction. The all-inclusive private cloud infrastructure includes unlimited server space, hosted desktops, connectivity, local hardware, managed security, collaboration tools, CAD in Cloud capabilities, 24/7 support, and more.

CAD IN THE CLOUD

SUPPORTED BY EXPERTS IN YOUR INDUSTRY

MANAGED SECURITY

UNLIMITED STORAGE CAPACITY

MOBILITY & COLLABORATION

Why do Architects, Engineers, and Construction Professionals Choose CompleteCloud?

CAD in the Cloud

Avatara's completely mobile and secure IT infrastructure enables high performance CAD for remote workers. Our proprietary technology provides a highly available, full-motion, non-virtualized, data center-based computer with a CAD certified graphics card. Our development team is well-versed in a wide range of CAD software and works to ensure our users remain productive as technology evolves.

Unlimited Storage

Our data centers offer unlimited space so that you never have to worry about whether you have enough room for that new project. We help our customers craft the best environment for their network database by providing a scalable private cloud solution that aligns with the size of your company and scope of your work. One of our core principles is cost-efficiency, so we price everything upfront with no risk of being blindsided by hidden fees. Our solutions are flexible and allow businesses to scale on demand. You can count on us to eliminate the stress and costs associated with monitoring, managing, and acquiring additional cloud storage.
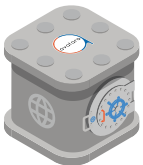

Mobility & Collaboration

Whether you have multiple office locations or a remote workforce, truly mobile collaboration tools make all the difference. CompleteCloud lets your entire firm work at 100% capacity from any device in any location. Our full Collaboration Suite is always at users' fingertips including phone, chat, audio/video meeting rooms, and file sharing. And no matter where they are working, the level of security doesn't waiver. Your team is always protected and always productive

24/7 Expert Support

Can you afford to work with an IT provider that doesn't understand the nuances of your network? Avatara has been working with the AEC industry since our conception. Every advancement made to our technology is due to direct feedback from engineers, architects, and construction executives. Our platform is designed with your evolving needs in mind and we are available to support you via phone, chat, or text message every hour of every day.

Managed Security

The primary reason customers choose CompleteCloud is that it is the most secure solution on the market. The entire platform is built in a secure data center utilizing NIST 800-171 compliance as a framework and leveraging industry-leading software and a 24/7 operations center for continuous monitoring. Our layered approach to cybersecurity is constantly evolving to stay in front of threats and compliance demands.
